

PART A

RTC2702A Observe Environmental Work Practices

Purpose

This competency standard covers the process of observing and contributing to positive environmental work practices. It requires the ability to follow workplace directions and instructions, recognise basic environmental hazards and threats and communicate accurately with supervisors and workplace colleagues, and keep simple records. Observing environmental work practices requires awareness of relevant environmental legislation, policies and workplace/industry practices, approaches to improving environmental performance, and environmental issues (especially in regard to water catchments, air, noise, ecosystems, habitat, efficient use of resources, sustainability and waste minimisation).
